PHILADELPHIA, WED'Y, AUG. 28, 1907

IN CALIFORNIA AND OTHER FAR AWAY PLACES.

Philadelphia seems to be greatly favored by even far away customers who have important contracts to place for both tile and Mosaic work. To have prophesied that the residents of the Pacific coast would soon be asking for estimates from our tile and Mosaic workers, the prophet would have been looked on with suspicion. The Italian Marble and Mosaic Co., 429-31 Spruce street, this city, seems to have a far reaching influence in this as well as other directions, as the following contracts it has recently secured will show. Office building, San Francisco, California; office building, Chattanooga, Tennessee; office building, Norfolk, Virginia; Saving Bank, New Haven, Conn.; residence, Jericho, Long Island; Hotel Victoria, N. Y.; bank, Poughkeepsie, N. Y.; post office, Patchogue, N. Y.; five residences, Far Rockaway, N. Y.; office building, Lakewood, N. J.; drug store, Lakewood, N. J.; bank, Riverton, N. J.; St. Peter's R. C. Church, Merchantville, N. J.; Broadway Trust Co., Camden, N. J.; two ships, Neafe & Levy, ship and engine builders; Republican Club, Wilmington, Del.; residence, Collegeville, Pa.; Penn Trust Co., Norristown, Pa.; residence, Bristol, Pa.; saloon, Pottsville, Pa.; bank, Kane, Pa.; Hanover Bank, Hanover, Pa.; office building, Catsauqua, Pa.; bank, Bloomsburg, Pa.; residence, Ogontz, Pa.; two residences, Sharon Hill, Pa.; hospital, Palmerton, Pa.; residence, Reading, Pa.; residence, Phillipsburg, Pa.; Darby Bank, Darby, Pa.; church, Thirty-fifth and Baring streets, Phila.; church, Thirty-eighth and Baltimore avenue; Lit Brothers' store; Trust Co. Building, Fifty-second and Market streets; store, Fourth and Library streets; residence, 1933 North Thirty-third street; Colonnade Hotel; office building, 422 Chestnut street; Y. M. C. A. building, Broad and Arch streets; Bijou Dream, 1311 Market street; residence, 4231 Walnut street; saloon, Ninth and Spring streets; operating room, 1126 Spruce street; Dreamland, 938

Market street; store, 42 North Eighth street; drug store, Fifty-second and Market streets; and residence, 2032 Spruce street.

This is the natural result of ability and care in the production of good work, for cost seems to cut no figure in these contracts.

OBITUARY

The entire architectural profession feels the loss of one of the foremost architects of the city, in the person of Willis G. Hale. His long connection with the profession, of over a quarter of a century, made his name and his achievements known throughout the city and among architects elsewhere. He was a man among men, an architect among architects, a lover of his profession for art's sake and a designer of structures representing progressive ideas combined with high utilitarian features.

Among his achievements which will long do honor to his memory are the Record Building on Chestnut street on the site of the old Marcoe Estate and the Weightman Building and other large buildings. His natural instinct and training and versatility qualified him for the work of his life and he acquitted himself in all his undertakings with honor to himself, and to the credit of the profession, of which he was such an honored member.

In the latter years of his life his connection with the Weightman Estate absorbed his attention and he practically withdrew from the competitive struggles of the day. He enjoyed the social intercourse of the older coterie of Philadelphia architects, and was recognized by them as well as by all who came in contact with him as a man of pronounced ability.

His death was due to that insidious disease, pneumonia, at the comparatively early age of 60 years.

ARCHITECTS' NOTES

Simon & Bassett, architects, have removed from 1229 Walnut street to larger quarters at 1112-14 Chestnut street.

Charles J. Brooks, architect, 14 S. Broad street, is finishing plans and specifications for a two-story and attic residence, 44 x 38 feet, for Mr. George Holl, at Merchantville, N. J. The house will be built of Port Deposit stone and will be in the American colonial style of architecture.

Clyde S. Adams, architect, 1233 Arch street, has completed plans and specifications for a three-story house to be built at Fifty-second and Pine streets for Sergeant John A. Murphy. The house will be built of brick, and measure 18 feet x 49 feet. David A. McClelland, builder, is estimating.

T. J. Schaub, architect, 615 West Diamond street, Allegheny, Pa., has prepared plans for a large garage to be erected on North Diamond street, for the Diamond Auto Company. It will be of brick, with stone trimmings, fine interior finish, steam heat, electric lights, open plumbing. It will be thoroughly provided with all modern facilities.

H. Rinehart Warren, architect and engineer, 1319 N. Fifteenth street, has prepared plans and specifications for a handsome three-story house to be built at the northeast corner of Melrose and East avenue, Oak Lane, Pa., for Thomas Boggs. The house will measure 42 x 70 feet, with a large terrace. William Steele & Sons Company, builders, are estimating.

Amos W. Barnes, architect and engineer, 136 South Ninth street, is preparing plans and specifications for the Sunday school and parish building addition to the Talmage Memorial Dutch Reformed Church at Pechin and Rector streets, Manayunk. The building will be one story high with a gallery and a high basement and measure 50x58 feet. The Sunday school will be on the first floor and gallery, while the basement will be devoted to indoor athletics.

John T. Comes, Washington Bank Building, Pittsburgh, Pa., has prepared plans for a brick stable to be erected on Locust street, for the Mercy Hospital. It will be well finished throughout and provided with every modern facility. The same architect is receiving bids for the erection of a brick and stone convent at South Fifteenth and Carson streets, for Saint Adelbert Roman Catholic congregation. It will have fine interior finish and all modern conveniences.

As to the statement made regarding the proposed new opera house at the southwest corner of Broad and Poplar streets, we learn that the settlement for the purchase of the Harrah property will not be made until about October the first. One of the parties prom-

inent in the affair declares the statements made in the papers to be nonsense in a pure and simple effort to guess out the situation. He promised facts at an early day.

Simon & Bassett, architects, 1112 Chestnut street, have prepared plans and specifications for the general alteration to the interior and exterior of the dwelling 3034 York street, for Andrew Pinkerton. The following builders are bidding: E. H. Schwartz, Frank J. Wintz, Smith, Hardican Co. and Lam Building Co. The same architects have completed plans for the alterations to the building 1522 Chestnut street for Kayser & Allman. The following builders are bidding: J. N. Gill & Co., Chas. W. Denny, P. J. McDevitt, J. Frank Daniels, Wm. Steele & Sons Co. and Mr. Murphy.

J. L. Beatty, 146 Sixth street, Pittsburg, Pa., has prepared plans for three new college buildings, to be erected at Assuit, Egypt, for the American Mission College. The buildings will be two stories high, of brick and steel construction, finished basements, and thoroughly equipped for educational purposes. It is estimated that they will provide accommodations for eight hundred or one thousand students. The same architect has just awarded the contract to Contractor W. B. Bennett for extensive improvements to Columbia Hospital, at Wilkensburg, Pa. These improvements will include the erection of an addition to the hospital and a home for the nurses. Both will be of brick and stone, fine interior finish, tiling, steam heat, electric lights, etc. The estimated cost is about \$120,000.

BUILDING and REAL ESTATE NOTES

Charles A. Lynch, builder, 1114 N. Forty-second street, will build a one-story brick stable with wagon shed addition, 28 x 80 feet, at the northeast corner of Filbert and Salford streets, for Otto Schwegler to cost \$4000.

The Roland Park Company, builders, Roland Park, Baltimore, Md., has been awarded a contract for the two and one-half-story shingle house, for John P. Baer, to be built at Roland Park, Md. Plans by Bissell & Sinkler, architects, Bailey Building, Philadelphia.

George F. Payne & Company, builders, 401 S. Juniper street, are receiving estimates from sub-contractors for the two new buildings to be located at Lafayette, for Wm. J. C. Hamilton & Sons. The buildings will be of brick; one will be two stories high, 50 x 100 feet, the other will be four stories, measuring 50 x 160 feet. Plans by the George M. Newhall Engineering Company, 136 S. Fourth street, Philadelphia.

J. Frank Grant, builder, 1625 N. Thirtieth street, has been awarded the contract for the handsome residence of Miss M.

Bairds at 1506 N. Sixteenth street. The house will measure 36 x 90 feet, and will be of a semi-fireproof construction. The walls will be of brick, with stone and copper ornamentation and the roof of asbestos shingle. Estimated cost \$50,000. Plans by L. Cass Miller, architect, 1634 N. Fifteenth street.

Calvin W. Rogers, builder, Heed Building, Philadelphia has been awarded the contract for the handsome two and one-half story residence for J. E. Limeburner, to be erected at Swarthmore, Pa. The house will be in the Colonial style of architecture and be built of stone and measure 42x41 feet. Plans by Simon & Bassett, architects, 1112 Chestnut street, Phila.

H. Grant Cline, builder and owner, 5736 Haverford avenue, will build four two-story brick dwellings, 15 x 22½ feet, on the north side of Irving street east of Fifty-third street, and four two-story 15 x 30.10 feet, on the south side of Locust east of Fifty-third street. They will be fitted with all modern conveniences, sanitary plumbing, hot air heat, cement cellars and walks, slag roofs, etc. Cost \$20,000.

Walter S. Bauer, builder and owner, Broad and Cayuga streets, will build six two-story brick dwellings, 15x26 feet each, on the east side of Fifteenth above Bristol street, to cost \$13,200.

The building committee of the State Hospital at Danville, Pa., will receive sealed proposals at the office of the superintendent, Danville, Pa., until twelve o'clock noon, Tuesday, September 24th, for the erection of a Female Infirmary Building; a building for acute insane male patients, and a building for acute insane female patients.

Plans and specifications may be obtained at the office of the superintendent at the institution; the application to be accompanied by a certified check to the order of Alex. K. Foster, treasurer, in the sum of one hundred dollars; the same to be returned to the maker upon the return of the said plans and specifications in good order.

Bids will be made for the erection of these buildings separately and jointly. Each bid for the work jointly must be accompanied by a certified check to the order of Alex. K. Foster, treasurer, in the amount of two thousand dollars, which sum shall be forfeited in the event of the successful bidder not entering into a contract with satisfactory bond in the sum of 25 per cent. to the amount of the contract. The Building Committee reserves the right to reject any or all bids, or parts of bids, as may be deemed to be the best interest of the State. Address all bids to Dr. L. I. Shotmaker, chairman, care of Dr. H. B. Meredith, superintendent, Danville, Pa.

PHILADELPHIA, WED'Y, SEPT. 11, 1907

A RADICAL IMPROVEMENT IN THE METHOD OF SURFACING FLOORS.

Floor planing by hand, with the resultant imperfections, tool marks, tears, gouges and wrinkles, is gradually being replaced by an electric machine lately improved for this purpose.

This machine is based on the principle of the sandpaper drum. It turns out work far superior to the hand work and of a uniform character—nothing depending upon any special skill of the operator.

But perhaps the greatest accomplishment of the machine is the saving of time. Floor planing by hand must always be a slow and tedious operation; and as it always comes at the completion of the building, the delay is most annoying. By taking advantage of the machine work the largest floor can be surfaced in one day. The value of this advantage will appeal to both the owner and the contractor.

Martin Frings, 1004 Walnut street, Philadelphia, who controls this machine, has lately surfaced vast areas of flooring in exceedingly short order; among the many large contracts completed are the Philadelphia Hospital and the Widener Memorial Home for Crippled Children and numbers of large skating rinks in and outside of Philadelphia. Old floors can be surfaced in the same short time as new ones. Mr. Frings has been enabled by the use of the machine to improve the standard of hardwood floor work, which is an important branch of his business.

Mr. Frings is a general contractor for wood floor work of absolutely every description—furnishing, laying, surfacing and finishing.

ARCHITECTS NOTES

Milligan & Webber, architects, 520 Walnut street, have completed plans for a three-story store and flat building, 34 x 80 feet, to be erected at the southwest corner of Randolph and Fitzwater streets, for Gennalo Di Genova, to cost \$8,125. The contract has been awarded to Dillon & Brassi.

Ralph E. White, architect, Pennsylvania Building, has prepared plans and specifications for the alterations and addition to the residence of Miss Mary Devinnie, 1707 Rittenhouse Square. The following builders are bidding: Wm. R. Dougherty, Geo. L. Sipps, John McShain and Jas. Doak & Co., Henry L. Reinhold, Jr., 1004 Chestnut street, and D. Melville Van Horn, Wildwood, N. J., associate architects, are engaged on plans for the residence of Washington Holton, to be built on Lavender avenue, Wildwood Crest, N. J. The house will be a three-story frame structure. Estimated cost \$6000.

Heacock & Hokanson, architects, Bailey Building, are preparing plans and specifications for a two and one-half story house for Samuel H. High, to be erected at York Road and Washington Lane, Jenkintown, Pa. The house will be built of brick and measure, 46 x 32 feet, with wings for office and kitchen.

Joshua C. Jeffries, architect and engineer, 216 S. Fifth street, Camden, N. J., has completed plans and specifications for a three-story store and dwelling to be erected at Third and Linden streets, Camden, N. J. for L. H. Wilson. It will be built of stone, and measure, 20 x 52 feet 4 inches. Wm. R. Dougherty and H. E. Grau & Company are estimating.

Joseph M. Huston, architect, Witherspoon Building, has completed plans and specifications for a three-story dwelling, 36 feet square and a two-story stable, 16 feet 6 inches x 25 feet, to be erected at Cynwyd, Pa. The house will be built of stone, brick and rough cast. The stable will be of brick. Bower & Logan, builders, Heed Building, are estimating.

Herbert N. Moffett, architect, 307 Market street, Camden, N. J., is engaged on plans and specifications for a new church, to be built at Pitman Grove Terrace, for the St. Thomas Episcopal Parish of Glassboro, N. J. It will be built of stone and measure 88x48 feet. The interior will be finished in hardwood, stained and leaded glass, tin or slag roof, hot air heat. When completed it will cost about \$25,000.

Albert B. Pierson, architect, 427 Walnut street, has completed plans and specifications for a three-story addition, 25 x 30 feet, at 7130 Germantown avenue. It will contain hot water heating in both old and

new quarters, a new bath room on second floor of new addition, and new fixtures in old bath room and be fitted up generally for apartments. Estimates will be taken by the owner.

H. A. Stout, architect, Law Building, Atlantic City, N. J., has completed plans and specifications for the proposed new eight story fireproof hotel to be built at Virginia avenue and the beach for a New York syndicate. It will be built of brick and stone and re-inforced concrete construction. The interior will be finished in hard wood and magnificently fitted up with every modern appointment. Lynch Brothers, builders 46 N. Twelfth street, this city, are estimating.

In relation to Mr. Oscar Hammerstein's proposed new opera house at the southwest corner of Broad and Poplar streets, Mr. Hammerstein declares that unless Providence prevents, the building will be opened to the public on the evening of November 2d, 1908, with an opera performance, with Mary Garden as the feature. Mr. Hammerstein will personally supervise the construction of the building and will also buy and pay for the material to be used for construction purposes. He proposes to commence the demolition of the old building now on the site as soon as the transfer of the property is completed. He confirms the statement that Architects J. B. McElpatrick and Son, 1402 Broadway, New York, have been selected to prepare the plans.

At Wilmington, Harry Botham, the present proprietor of the Clayton House, is planning to build a handsome hotel, to cost \$250,000, in that city. According to the proposed plans it will be a six-story structure, with all modern conveniences, sleeping apartments for at least one hundred guests and a dining room that will seat 200 people. There will be reception and waiting rooms for ladies. In each sleeping apartment will be hot and cold running water and private telephones. The kitchen will be fitted up with every appliance known to the culinary art. There will be a large reception hall for the use of lodges or societies which desire to give banquets. In addition to this there will be several smaller reception rooms for private parties. There will also be a mesanine floor, used at will by the guests of the house. The hotel will be of brick and stone trimmings. A site is now being selected on which to build.

It will be magnificently fitted up on the interior with all the latest appointments and conveniences and contain 140 rooms. The specifications call for the very best of everything, such as cabinet work, tiling, sanitary plumbing, steam heating plant, engine and dynamo room, laundry and refrigerating plant, etc. The following builders are estimating: Cramp & Co., Thomas C. Trafford, and John W. Emery, of Philadelphia, and Thompson Stiles and Paul Knauer Co. of Atlantic City, N. J.

1907

The building season of 1907, from January 1st to October 31st inclusive, including the transfers of real estate in Philadelphia for the same months.

8,562 New Buildings of all kinds, for which permits were issued, costing \$28,991,141 exclusive of the cost of the land, against 9,850 new buildings of all kinds for the same months of 1906, a difference of 1,288 in favor of 1906 for the same period, while the difference in the investment is \$1,004,892.00 in favor of 1906.

2,334 Alterations and Additions (including only those costing \$300 and over), costing \$3,501,000.00, a loss, when compared with the results of 1906, of only 11, while the investment is \$16,500.00 less.

22,016 Transfers of real property against 21,334 for the same months of last year, a difference in the number of transfers in favor of 1907 thus far of 682.

The value of the properties transferred this year is \$98,180,027.65, against \$105,856,401.22 or \$7,676,373.57 less than the value of the transfers last year.

The total expenditures for building improvements of all kinds this year up to October 31st, inclusive, amounts to \$32,492,141.00, against \$33,513,533.00 for the same months of 1906, a loss of \$1,021,392.00.

We know of no way that will better voice our opinion of the economic condition of our country than the following excerpt, from a circular which we issued to our advertising customers in October last:

"Gentlemen:

The proposed panic, which was cut and dried beforehand in Wall street, did not materialize, because our country and its people as an economic proposition are entirely different factors to what they were even a quarter of a century ago.

The creative forces of the country are but lightly expressed in the fact that the farmers alone have astonished the whole world with a crop this year of such things as it must have, which in cold dollars means just seven thousand millions of them (\$7,000,000,000).

These creative forces will go on compounding to the end that the United States will become richer than the whole of Europe.

The trend of money and people from Europe will continue to come this way and all the stock jobbers in Christendom cannot make a panic."

This was the situation as we recognized it when the above was written and it is the situation now, outside of the question as to the intentions and the ability of the financial schemers to perpetuate the present money stringency. How far reaching it was prearranged to continue the sweetest bit of devilry ever witnessed on the American continent remains to be seen. If at the commencement it was a part of the program to continue the financial trouble until the commercial and industrial

energy of the country was undermined—which we readily concede is within the power of the financial masters, if they so desire, and it being to their interest to do so, then a new phase of the situation is presented.

We were informed about one year ago, by a party who seemed to be well posted as to the inner circle, that certain wealthy and influential gentlemen were loaded with contracts for material which they were unable to deliver owing to the rapid and unexpected advance in prices. It was stated that an effort was being made to get them out of financial ruin, and that the only way to accomplish this end was by kicking the props from under the industrial energy of the country. This seemed to us like a fair tale, and we personally took no stock in the statement, nor do we take any in it at the present writing. We believed then, as we believe now, that the game, it was, and has been all along, the old one of gunning for the gentlemen of careless recklessness, who are constantly walking on thin ice, in both the stock market and the business of the country. This is the way, the old way, since our boyhood, of reaping millions, a profitable, though heinous, way of doing it. The fellow only limited by the intentions of the coterie and its ability and influence in the world of finance.

It is its purpose to bring about a business crisis—and we do not think it is—then the question is, can the Government prevent it, or will Congress checkmate it? Is it the duty of those who make financial conditions? If drastic financial conditions continue, the business men of the country will be placed in an attitude of defence and will be highly probable to make a stand, and much misinterpreted laws, governing the national bank system, will be corrected.

NATIONAL BANK COLLATERAL LOANS UNLAWFUL

The Act of Congress, which created the national banking system, specifically states that no bank shall "loan money on and negotiate promissory notes."

"Loan money on personal security." Right here we make the issue bold. Personal security means the personal standing and reputation of a business man in a business community, and does not, through the use of the word, mean a wholesale collateral loan business of the stand and deliver style inaugurated years ago and now practiced to the quick by the holders of the collateral loan game with its unjust, unlawful and pernicious results as well as influence, is a pure and simple evasion of the law, and while extremely profitable, is the very end of the end of the end of the banking business suffers to the detriment of every business concern in the country, and we assert that if the collateral loan business of the banks' funds is once cut out a financial crisis will be impossible.

While the banks, under a liberal interpretation of the law, as laid in by a judicial magistrate, than the late Chief Justice, of the Supreme Court, of this State, in the case of Fowler vs. Scully, the National Banks, under the law, have the right to create a loan on the collateral of a borrower loan anything from a brick house to a footlocker; they have no right to loan money on anything except that which is specifically defined in the act itself.

Mr. Justice Agnew, in the case mentioned above, to our mind, strikes the very cause of the present trouble when he says:

"Experience also has shown that whenever banks abandon the legitimate practice of loaning or discounting on the well-known standing of the parties to commercial paper; to lend money on the hypothecation of stocks, real estate, etc., alone, in lieu of personal security, they enter an uncertain and unknown region of credit. The directors can well know or ascertain the standing of the drawers and makers of bills of exchange or means in the country, but the moment they leave this plain field to enter the region of corporate stock, they are in a position where they take a leap in the dark, and must resort to outside agents, such as lawyers, brokers, etc. The internal condition of the corporation is unknown to few, while the security of a mortgage rests on both title and liens, requiring skill to explore them. The evident intent of Congress in the National Banks should be institutions of commerce, not dealers in real estate, stocks or produce. Wherever there may be to accept an hypothecation of stocks, in addition, and to strengthen a loan, we do not say. We are discussing the power conferred to make and create loans. Another obvious purpose of confining their loans of money to personal security is to prevent these associations from splitting on the road, which has ruined so many banks, to-wit, that of lending too much of their capital to one person or one corporation."

The industries of the country must be protected, and to that end we assert first, last and all the time, there is not even a shadow of law that gives the National Banks the right to loan their money on collateral securities of any kind. There is room only for a very limited expression of surprise over the situation in construction work as noted in our tables, when compared with the results during the same period of 1906, for while

there were in the ten months of that year just 1298 more new buildings than for the present year, our builders, in 1906, were practically free from many of the embarrassments which have handicapped them this year, and the result, it must be conceded, is that the influence as a natural consequence of the panic talk that has prevailed since and even before the start of the present year, has been neutralized by the response and to properly understand this, the reader must learn to appreciate the superstitious nature of capital when it enters into the market, and from this we argue that the shrewd and observing men controlling such capital have had, up to the present time, no more dread of a business panic than we have had, and it will be seen by our tables there are 8060 two and three-story dwellings against 9200 built during the same months of 1906; here then there are 17330 in the twenty months of the two years, or if we take the results in this direction of 1906 in its entirety, we have a total of two and three-story dwellings, in twenty-two months, of 18,218. Now, Mr. Pessimist, if you please, let us assert that notwithstanding this enormous production of this kind of dwellings, which are the most popular in our city, there are at present very many vacancies, if any, and as we find, after a careful investigation among those whose business it is to rent such houses, that there is no enormous production commensurate with, indeed, it is a safe estimate, if based upon the experience of a single concern, whose business extends over a large territory, that the feature of the facts which go to make up this conclusion, for which has but three keys of vacant houses on its keyboard. Of dwellings, in fact, in the whole world that can show such a comparison in this feature, and own, and it must not be forgotten that this rental demand is in face of the fact that there have been many houses sold this year, and these houses were sold during the same ten months of 1906, and 22,076 transfers this year, against 21,334 for the same months of last year, and the story more eloquent than anything we may write; and we make here another point to the effect that the tales of the real estate market having gone to pieces is just as much as the transfer records of the city for the week ending November 2nd, as shown in the last issue of this journal, which shows that there were 162 transfers of real estate in a single week, when everyone admitted that the market was booming, and it will be observed that these 162 transfers were all in the abstract of deeds that were dated in October and November with only a few exceptions. We notice with considerable interest that the incurrences show a gradual increase, and that the cause of this real estate market which we do not like, for, while the percentage of mortgage incurrence this year is only greater than that of last year by 2.7 per cent, it is to be regretted that it is so. The transfers for the same period of 1906 bore a mortgage incurrence of 50.1 per cent, while those of this year carry 52.8 per cent. To this, however, must be added the ground rent incurrence 9.9 per cent, which makes the total incurrence 62.7 per cent, while in 1906 the mortgage incurrence was 50.1 per cent, and the ground rent of 2.6 per cent. It will be seen that West Philadelphia, consisting of the 24th, 27th, 34th, 40th, 44th and 52nd wards, is accounted with 2247 two-story dwellings against 4053 for the same months of 1906, the falling off being 1806, while the new three-story dwellings in the same area this year number 115 against 270 for the same period last year, a difference of 155 in favor of 1906; hence it is conclusive that preference for two-story dwellings has not changed. In 1906 what is known as operative building appearing in this section, to 4323, while in 1907, for the same ten months it was 2262, a falling off of 1961. It will be noticed that the 24th ward shows a gain of 58 two-story dwellings and a loss of 28 in the three-story dwellings.

The area, formerly known as the 27th ward, and from which the 24th ward was cut during the Summer of the present year, the latter not having been mentioned in our last November's report because it was not a definite ward at that time, shows a falling off of 1239 two-story dwellings and also shows a loss of 89 of the three-story class.

The 35th ward created in 1906, precisely the same number as last year, but it must be understood that there was no 44th ward in November last year, hence, on the old area there was built 999 two-story dwellings, or 43 more than in the same months of 1906, while in three-story dwellings in the same territory there is a loss of 18. The 40th ward also shows an enormous increase of 662 two-story dwellings and also a loss of 10 three-story.

The principal gains in the wards which largely offset the enormous loss in this year in West Philadelphia are as follows: The 21st gains 20 two-story and a loss of 1 three-story; 22nd ward gains 48 two-story and 88 three-story; the 33d ward gained 107 two-story dwellings, but shows a loss of two in the 36th ward gains 362 two-story and 3 three-story; the 38th ward gained 347 two-story and 22 three-story; 40th ward gained a gain of 58 two-story, but a loss of 26 three-story; the 42d ward neither lost nor gained in two-story, but shows a gain of 29 in three-story. It will be noticed that our tables give the two-story dwellings in the entire city as 8205 for the same months last year, or a loss of 1154, while the record for three-story dwellings is this year, 1907, against 995 in 1906, or a loss of 139. There are this year, 130 industrial buildings of all kinds against 152 last year, but while there is a falling

off 22 in number, the investment is greater by \$39,620. There is one less warehouse, but the investment is \$20,380 greater. There are two more dye and drying houses and the investment is \$7500 greater.

There are six factories less than last year, but the investment is greater by \$69,140. There are 12 less engine and boiler houses and the investment in those is \$152,600 less. Breweries and bottling houses are 1 less and the investment is less by \$53,700. Foundries and shops are 4 less and the investment is \$45,100 less. There are 7 more stores (not stores and dwellings), and the investment is greater by \$747,645 than for the same months last year. There are 5 more school houses with an increase in investment of \$559,150. Stables show a loss of 43, while the investment is \$64,500. There is 1 church less, but the investment is \$1706.00 more. Miscellaneous buildings show a loss of four, while the investment is less by \$1,428,823.

The country needs more railroads. The rehabilitation of our old canal systems, for sake of cheaper, though slower, transportation, is absolutely necessary. An incentive in the direction of encouraging vast numbers of agricultural workers to emigrate to this country is imperative, for, notwithstanding the enormous crop of 1907, both the planting and harvesting were hampered in a degree never experienced before.

Philadelphia is growing faster than most men are able to comprehend. The rental lists show an overcrowded street cars show the cry for more school houses show it, and indeed it is only the blind or unobserving who cannot realize it.

The ninety-nine miscellaneous buildings include: synagogues, \$5,000; freight shed, \$100,000; hospitals, \$825,400; library, \$40,000; patrol house, \$10,000; fire station, \$60,000; fire house, \$25,000; freight station, \$15,000; apartment houses, \$98,000; bank, \$23,000; hotel addition, \$150,000; parochial residences, \$39,000; infirmary, \$15,000; railroad station, \$100,000; garages, \$271,370; nurses' homes, \$30,000; rectories, \$36,000; Y. M. C. A. Building, \$650,000; club houses, \$181,800; parish houses, \$90,247; gymnasium, \$100,000; bath house, \$12,000; Alter plan, \$13,000; ice plant, \$25,000; dormitory, \$43,000; transformer stations, \$100,000; sub-postoffice, \$18,000; hall, \$40,000, and a few other buildings of minor importance.

The following table shows the number of new buildings erected during each month of the building seasons of 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1905, 1906 and 1907 exclusive of alterations and additions:

The **HITE BATTERY** is a liquid battery in one unit of high voltage, contained in a wooden receptacle with liquid proof lining, which for life, durability and results has never been equalled. It is designed especially for use in hotels, hospitals, cafes and public buildings of every description where annunciators, elevator signals, push call bells, electric gas lighting, etc., are used; also for door bells and gas lighting in private dwellings.

These batteries will stand a heavy ground, and if allowed to recuperate a short time will again be ready for service.

Each battery contains a complete charge and can be set up in a few minutes by an inexperienced person. The **HITE BATTERY** is manufactured in four sizes, giving 4, 6, 8 and 12 volts each. Our 12 volts battery will do the work of 8 or 9 high grade sal-ammoniac cells and only occupies a space 7 x 7 x 12 inches. The other sizes are correspondingly smaller. Our four volts type is for door bells, and takes the place of three old style cells. Give us **ONE** trial and you will use or specify none but the **HITE BATTERY**.

Superintendent of Schools Brumbaugh has recommended a model playground, to be established on the ground south of the Parkway, and west of Twenty-second street, extending as far south as Filbert street, and having the Schuylkill River as its western boundary.

Abel Bottoms, builder, 41 South Fifteenth street, has purchased the large lot, measuring 60 x 120 feet, at the northwest corner of Thirty-third and Walnut streets, for \$18,000. It is the intention of Mr. Bottoms to build a modern brick flat house about six stories in height on the site.

Guy King, architect, 1513 Walnut street, has completed plans for alterations to the dwellings at 4005 to 4014 Girard avenue for Stephen Green. The following builders are bidding: F. L. Hoover & Sons, Inc.; Holm & Son, F. C. Michaelson, H. C. Dahl, and Alexander Chambley.

Stearns & Castor, architects, Stephen Girard Building, are engaged on plans and specifications for a stone addition to one of the buildings of the Frankford Hospital, to be used for nurses quarters, also for a stone ambulance station at the same location. Plans will not be ready for bids for some time.

It is stated that Barber, Hartman & Co., 1201 Chestnut street, have sold the properties located at 315 to 321 North Broad street. The lot measures 71 x 120 feet deep, and extends through on Broad, from Pearl to Wood street. It is said that the purchase was made by an automobile company who will erect a large garage on the site.

Isaac Pursell, architect, 119 South Fourth street, has completed plans for a one-story brick power house, with slate roof, measuring 43.8 x 10.4 feet, to be built at Pitman, N. Wagner, of Girardville, Pa., Secretary of the State Hospital, near Ashland, Pa., for a nurses' home to be erected adjacent to said hospital. The cost must not exceed \$10,000. Present plans call for an expenditure of nearly half a million dollars, including the handsome building, to be erected on the new Parkway.

At Dallas, Texas, Hella Temple of Shriners has decided to erect a fireproof building, 175 x 250 feet, and wants plans for such a structure. The estimated cost, not including the site, is from \$100,000 to \$125,000. Mr. Joseph G. Hunter is chairman of Building Committee.

Frank G. Taite, 133 South Twelfth street, has sold to the Evangelical Lutheran Church of the Trinity, southwest corner Eighteenth and Wolf streets, a lot, measuring 84.3 x 153 feet, on the north side of Ritner street, in the rear of the church. The ground will be used for an addition to the present edifice.

Henry D. Dagit, architect, 411 Walnut street, is engaged on plans and specifications for a frame rectory building, measuring 30 x 32 feet, to be built at Beach Haven, N. J., for St. Thomas Aquinas Roman Catholic parish. It will be heated by hot air and cost about \$15,000. Rev. Thomas J. Whelan is the rector.

Edwin F. Durang & Son, architects, 1200 Chestnut street, have completed plans and specifications for a convent building, to be built at Seventeenth and Ritner streets, for St. Monica's Catholic Church. It will be a two-story brick structure, measuring 50 x 53 feet. John McShain and Jacob Myers & Sons, builders, are bidding.

Isaac Schlachter, 3826 Frankford avenue, has sold to the Episcopal Church of the Good Shepherd, at the northwest corner of Cumberland and Front streets, the property adjoining the church on the east, measuring 18 x 160 feet, for \$5,930. It is stated that the ground was bought for the purpose of building a rectory for the church.

The Treasury Department, Washington, D. C., has chosen the following eight New York architects to submit competitive plans for the new post office building, to be erected in New York City: McKim, Mead & White, Carrere & Hastings, George B. Post, Reins & La Farge, Whitfield & King, H. M. Murchison, Cass Gilbert and H. Van Buren Magonigle. The plans will be opened on March 25th, 1908. The judges to pass on

the plans are Henry F. Hornbostel, of Palmer & Hornbostel, New York; James G. Hill, Washington, D. C.; Frank Miles Day, Philadelphia, Pa., and E. M. Wheelright, of Boston, Mass.

The plans for the proposed handsome new stone church, to be built at Forty-fifth and Walnut streets, for the Fortieth Street Methodist Episcopal congregation, are only in a preliminary state and will not be ready for estimates for some time. C. E. Schermerhorn, 430 Walnut street, is the architect, and states that it will be some time before the plans will be ready for the building committee in charge.

Bamberger Brothers Company, real estate brokers, 606 Chestnut street, the recent purchasers of the store property, at the southeast corner of Broad street and Girard avenue, measuring 22 feet on Broad street by 160 on Girard avenue, inform us that in case the property is not sold, they will erect a fifteen-story flat house on the site, at the expiration of the present occupant's lease, which will be in the Spring of 1909. The proposed new building will cost at least \$125,000.

Wilbur S. Knowles, No. 1 West Thirty-fourth street, New York, has prepared plans for an addition to St. Mary's Hospital, on Centre street, Orange, New Jersey. The plans call for additions to the north and south of the present building with a tower, six stories high, in the rear of the present building. The basement and five stories of this tower will be divided into sections for the general public and private hospital patients, and on the sixth floor there will be a modern operating amphitheatre. Jacob Naschold, architect, 1118 Chestnut street, is engaged on plans for three pairs of modern brick residences to be erected in Wilmington, Del. They will be two stories in height and contain all the latest conveniences.

It is stated that Frank B. Foster, West End Trust Building, has bought a four-acre tract of land at Morris and Gulf roads, Bryn Mawr, Pa., for \$10,000, on which to build a handsome residence for himself in the early spring.

Amos W. Barnes, architect and engineer, 134 South Ninth street, is engaged on plans for a three-story brick and fireproof boiler and stock house, measuring 36 x 70 feet, to be built at Whitehall, N. Y., for the Champlain Silk Mills.

Joseph M. Huston, architect, Witherspoon Building, has completed plans for a subway entrance connecting Lit Brothers' store with the Market street subway. J. P. Thompson, George L. Sipps and Herbert E. Havens, builders, are estimating.

Charles A. Blatohley, engineer, 1052 Drexel Building, has completed plans and specifications for brick machine shop and yard improvements for J. E. Wood, American and Diamond streets. Henry E. Baton, builder, 1221 Arch street, is bidding.

James H. Windrim, architect, Commonwealth Building, has completed plans for finishing the basement of the contagious ward building, the passageway building and the administration building of the Wills Eye Hospital, at Eighteenth and Race streets. Jacob Myers & Sons, builders, are bidding.

Ferdinand Marks, real estate broker, 205 South Sixth street, has sold for Harry Weinreich, the brick stable at 1316-18 Mount Vernon street, measuring 36 x 100 feet. The purchaser's name is withheld, but it is stated that a four-story brick garage will be built on the site when the present lease expires.

Charles L. Hoffman, architect, 911 Walnut street, will shortly complete plans and specifications for a pair of three-story brick and frame dwellings, measuring 25 x 32 and 18 x 42 feet, to be built at Ocean City, N. J. Shingle roofing, hot air heat and all modern conveniences will be provided for. Plans will be ready for estimates in about a week.

Edgar V. Seeler, architect, Real Estate Trust Building, southeast corner Broad and Chestnut streets, is engaged on preliminary plans for the proposed new building for the Curtis Publishing Company, to be built on the north side of Walnut between Sixth and seventh streets. It will be an eight-story brick and fireproof structure and will be equipped with every modern facility. The cost will be about \$1,000,000.

Charles Carver, attorney at law, Girard Building, has bought the A. M. Chichester, Jr., residence, at Grandview avenue and Coopers town road, Bryn Mawr, Pa., for \$35,000. The tract consists of a large stone residence and ten acres of ground. It is stated that Mr. Carver will have extensive alterations made to the property and occupy it as his residence.

Charles E. Oelschlager, architect, 1009 Harrison Building, has completed plans and specifications for alterations and additions to the residence of Charles Carver, Haverford, Pa. There will be a three-story stone and frame addition, measuring 50 x 30 feet, and interior alterations. George Croll, J. D. Leng, F. Mahan, Gray Bros., E. J. Kreitzburg and M. W. Young, builders, are bidding. Bids due December 20.

J. Edward Laferty, architect, 11 East Pleasant street, Baltimore, Maryland, has been commissioned to prepare plans for nine hundred twin two and three-story concrete block dwellings, to be well finished throughout and provided with all modern conveniences. The cost will be about \$4,500 each, and they will be erected on a tract of one hundred and forty acres in the suburbs of Baltimore for the Forest Glen Land Company. Mr. B. Wood Burch is President of the company and Mr. B. Guy Corcoran Secretary and Treasurer.

Stearns & Castor, architects, 1107 Stephen Girard Building, have prepared sketches for a Sunday school building for the Trinity M. E. Church, at Wilmington, Del. The proposed new building will be erected on the site of the present chapel, on Parker street. The Board of Trustees and the Building Committee from the Sunday school met the architect, Mr. Castor, last week, and discussed plans for the new building, and after a two hours' conversation it was finally agreed that as many of those present who could would visit Philadelphia, for the purpose of visiting and viewing a number of churches, whose general construction might furnish light and information on the subject and thus enable the trustees and the committee to decide on the best plans for the proposed building.

At a special meeting, to be held on January 6th, 1908, the members of the Union League will be asked to vote on the question of erecting another addition to the clubhouse, at a cost of \$1,000,000. Joseph M. Huston, architect, Witherspoon Building, completed plans last year for an addition which is now in course of erection. It was intended in the new addition to have stores on the first floor, while the upper portion was to be six stories high, providing space for a large banqueting hall, a gymnasium with a swimming pool and

about 100 bedrooms. The proposition to build, however, was voted down, and the architect paid for his plans. It is now understood that a competition will again be invited, in which a number of architects, members of the League, will submit plans, and if the members at the meeting approve the project work will be started early in the spring.

BUILDING and REAL ESTATE NOTES

John M. Kennedy, Jr., owner, 2018 Spruce street, was granted a permit to repair the fire damaged factory building at the S. E. corner C and Ontario streets.

William H. Foulkes, builder, 7821 Germantown avenue, has a contract to build a two-story brick stable, 50 x 32 feet, on the west side of Germantown avenue, above Allen's lane, to cost \$1,225, for David Ott.

William R. Dougherty, builder, 1604-10 Sansom street, is bidding on a two-story brick stable, 20 x 36 feet, to be erected on Filbert street, west of Thirty-fourth, for George W. Stoker & Son. The same builder is also bidding on alterations and additions to the residence of E. W. Coates, 2024 Spruce street. The work will consist of a new lavatory on the first floor, morning room and pantry on the second floor and a bay window in the third story. Plans by Mantle Fielding, architect.

It is stated that Philadelphia capital will soon insure the construction of one of the finest and safest automobile tracks in this country, if not in the world. The site selected is a plateau of ground just beyond Llanerch, on the West Chester pike, within a half hour's ride from the centre of Philadelphia by the Elevated and the West Chester Traction Company. The latter company has already arranged to lay a branch track directly to the ground. The course will be about three miles in length, and one hundred feet wide at the narrowest point, and the turns will be a quarter of a mile long and one hundred and twenty-five feet wide, thus insuring safety and making the greatest speed possible. The track will be made of concrete and cinders. Immense grandstands and field seats will be constructed, besides two large public garages. A handsome club house will also be erected for the use of the club, and every convenience and comfort that a country club requires will be provided. It will contain bedrooms, parlors, dining rooms, lavatories, swimming pool, etc. There will be three or four entrances to the grounds, which will be subways, so that there will be no crossing of the track by spectators or machines. The site contains over two hundred acres. The president of the club is Mr. Louis Bergdoll.

READY FOR DISTRIBUTION

The revised edition of the building laws and city ordinances, controlling the erection of buildings in Philadelphia, is now in the hands of Chief Edwin Clark, of the Bureau of Building Inspection of this city, for distribution.

The book, as now presented, is of more than usual advantage to builders and architects from the fact that it specifically embraces a vast amount of scientific data regarding the value of material used for reinforced concrete buildings, bridges, etc. The book does not include the laws governing elevator inspection because, through an act passed by the last legislature of this State, the bureau has the right to establish elevator inspection as a distinct and separate division, which in all probability will be done. Hence the omission of the elevator inspection laws and ordinance from the book above referred to. The book contains 170 pages of closely printed matter, and should be carefully studied by all builders in order to escape serious entanglements.
